

The Yukon Hospitals is an integrated system with facilities in Whitehorse, Dawson City, and Watson Lake. The family of acute care hospitals strive to cultivate an environment of passionate and engaged people with a culture that values growth, work/life balance, and wellness in helping all our people reach optimal ability.

Clinical Care Managers (2 vacancies)

OR/Peri-operative Services & MDRD

Maternity & Secure Medical Unit

Are you looking to be part of an exceptional and passionate health care team in one of Canada's most spectacular natural environments with vast and stunning wilderness at your doorstep? Yukon's primary acute care centre, the Whitehorse General Hospital, is seeking two **Clinical Care Managers** to lead (i) the **Operating Room/Peri-Operative Services and Medical Device Reprocessing Department (MDRD)**; and (ii) the **Maternity Unit and Secure Medical Unit**.

Reporting to the Director, Patient Care and Experience, the Clinical Care Manager is responsible and accountable for the overall clinical, financial, and personnel management of the patient care unit on a 24-hour basis. The Clinical Care Manager provides strategic and professional direction for nursing services within the unit, ensuring patient care standards are met with effective and efficient management of human, financial, and physical resources.

If you are a dynamic leader who demonstrates a commitment to service delivery excellence while providing the best possible care, consider applying today and experience the secret of Canada's north: Whitehorse. Here, you will have the best of both worlds – access to modern amenities and services with your choice of rich cultural activities or outdoor adventures.

QUALIFICATIONS

- Demonstrated leadership and/or experience supervising a team of direct care professionals in an acute care setting
- Degree or diploma in the healthcare field
- Regulated health professional (i.e. RN, OT, MSW, etc.) in good standing
- Direct experience working in similar units (OR/peri-operative services, medical device reprocessing, maternity, or mental health) is considered an asset
- Proven relationship and team building abilities and experience to effectively plan and implement change
